Refund Options by Ticket Type

Refundable Tickets

Refundable fares offer the **highest flexibility**.

If a refundable ticket is cancelled before departure, passengers may receive **most or all of the ticket price back**, depending on fare rules.

Semi-Flexible Tickets

Semi-flexible fares allow cancellations but often include **deductions or cancellation fees**.

Passengers may receive **partial refunds after penalties are applied**.

Non-Refundable Tickets

Many discounted fares fall under this category.

In most cases:

- The **base fare is not refundable**
- Some **unused taxes may still be refunded**

Refund eligibility depends on the specific ticket conditions.

Cancelling After Travel Has Started

If part of the trip has already been used, refund calculations change.

The airline typically recalculates the ticket value based on the portion already used and deducts applicable charges. The remaining value, if any, may be refunded.

This often results in **smaller refunds compared with cancelling before departure**.

When Qatar Airways Cancels the Flight

If **Qatar Airways cancels the flight**, passengers generally have two options:

- Accept a replacement flight
- Request a **refund for the unused ticket value**

Airline-initiated cancellations often provide **better refund eligibility**, even if the original ticket had restrictions.
