Cancelling Before vs After Departure

Cancelling Before Departure

Cancelling early offers the **best chance of receiving a full or high-value refund**.

Refundable tickets cancelled before departure may qualify for **full refunds**, while semi-flexible fares typically receive **partial refunds**.

Cancelling After Travel Begins

If a traveler has already used part of the ticket, the airline recalculates the remaining value and deducts applicable charges.

This usually results in **smaller refunds**.

When Qatar Airways Cancels the Flight

If the airline cancels a flight, passengers are usually offered:

- Rebooking on another flight, or
- A **refund of the unused ticket value**

Airline-initiated cancellations often provide **better refund eligibility**, even for restrictive fares.
