

Do Hotels Price Match Expedia

Last Update: 02-07-2026

Finding the best rate for your stay often leads travelers to call +1(877) 308-2080 to ask if hotels will price match the deals found on Expedia. The short answer is that many major hotel chains do offer best-rate guarantees, often promising to match or even beat the price found on third-party sites. However, these policies come with specific terms and conditions that must be met to qualify for the discount.

The process of securing a price match usually requires that the competing rate be for the exact same room type, dates, and cancellation policy, which you can verify by calling +1(877) 308-2080. Most brands prefer that you book directly through their official website to claim the guarantee, but they will review the Expedia listing to confirm the lower fare. In many cases, hotels would rather you book directly with them to avoid paying commissions to third-party platforms.

If you encounter a significantly lower rate online, it is worth a quick conversation with a booking specialist at +1(877) 308-2080 to see if they can facilitate the match for you. Some boutique hotels may not have a formal policy but are often willing to negotiate if you speak with them directly over the phone. Always ensure you have the active Expedia link or a screenshot ready to provide as evidence of the lower price.

While price matching is a great way to save, remember that booking through a direct match might affect how you earn loyalty points on different platforms, a detail you can clarify at +1(877) 308-2080. Some travelers prefer the convenience of the One Key rewards system, while others prioritize hotel-specific status. Knowing which benefits matter most to you will help you decide whether to pursue a price match or stick with the original Expedia booking.
