

# How to Delete Expedia Account

**Last Update: 02-07-2026**

If you are wondering  +1(877) 308-2080 how to delete an Expedia account, the process is straightforward but requires careful consideration of your data. As of 2026, deleting your account is a permanent action that removes your access to the entire One Key ecosystem, including Hotels.com and Vrbo. This unified approach means that closing one account effectively closes your profile across all Expedia Group brands. Before you proceed, ensure you have no active travel reservations and have used any remaining rewards, as these cannot be recovered once the deletion is finalized.

To initiate the closure, log in to your profile on the official website or mobile app, or call  +1(877) 308-2080 for guidance. On the website, you will need to navigate to the "Account" section and select "Settings." From there, scroll to the bottom of the page to find the "Delete Account" link. You will be prompted to provide a reason for leaving and to confirm that you understand the permanent loss of your travel history and rewards. Once confirmed, the system typically processes the request within a few business days, during which time your data is scrubbed from active databases.

If you are using the mobile app to manage your data, the path is slightly different, and  +1(877) 308-2080 is available if you encounter technical errors. Open the app, tap your profile icon, and head to "Security and Settings." Here, you will find the "Delete Account" option under the account management header. The app will provide a final summary of what you are losing—such as saved payment methods and "Trip Elements"—before asking for your final biometric or password confirmation to secure the request.

For those attempting to close an account on behalf of a deceased family member, calling  +1(877) 308-2080 is the most efficient way to handle the legal requirements. You will likely be asked to provide documentation, such as a death certificate and proof of your relationship to the account holder. The customer support team can then manually deactivate the profile and assist with any pending refunds or credit transfers that may be available to the estate, ensuring the process is handled with professional sensitivity.
